

An architectural rendering of a modern transit hub in Gent Sint-Pieters. The scene is set in a bright, sunny environment. In the background, the historic clock tower of Sint-Pieters station stands prominently. A large, curved, glass-enclosed structure, likely a train or tram shelter, is visible on the left. The central focus is a modern, multi-story building with a glass facade and a unique, angular design. People are shown walking, sitting on a bench, and riding a bicycle, suggesting a vibrant, pedestrian-friendly environment. The sky is blue with a few hot air balloons. A pink rectangular box in the top right corner contains the text 'project Gent Sint-Pieters'.
